

# MAUTING

## AQUAbike

*Fitness centre in your pool  
- new trend in aqua aerobic*

*AQUAbike Mauting is a unique water stationary bicycle enabling users to pedal while submerged in water and thereby to profit from advantages and beneficial effect of aqueous medium on human body.*

- *Water lifting does not put much stress on ligaments and joints. Stay in the aqueous medium stimulates heart and vascular system activity. Constant hydraulic friction guarantees faster calorie burning.*
- *Thanks to motions at pedaling and rising whirl-pools the submerged body parts are massaged and well perfused constantly.*

# AQUAbike

Connect the bike ride with the beneficial effects of the aquatic environment.

*AQUAbike Mauting is fitted with original system of loading formation SMOOTHload, which sets new measures in options and fluency of the regulation.*

## Functions:

- **HYDROstream system** – enabling to regulate liquid flow via the driving shaft by means of which the optimal body circumfluence and increased water massage effect is reached.
- **EASYsetup system** – enabling comfortable setting of the required loading without need of submersion.
- **VARIOpoints system** – enabling versatile setting depending on the user proportions and the depth of the pool.
- **SMOOTHload system** – the centre of our bike, enabling continuous loading regulation.
- Integrated transport wheels for comfortable manipulation.
- Sucking disks for safe gripping to the pool bottom.

## Effects:

- Training of the whole body
- Heart and vascular system strengthening
- Cellulite reduction
- Fitness build-up
- Relaxation
- Massage effect

## Suitable for:

- Active sportsmen • Beginners • Health indisposed people • People suffering from obesity • Seniors
- Non-swimmers

## Usage:

- Swimming pools • wellness centres
- Rehabilitation centres • Spas • Private pools

*Minimal stress put on joints.*

*For the pool depth from 120 to 150 cm.*

*Two-year guarantee.*

*Stainless steel meeting strict hygienic measures.*

*Ergonomic shape for comfortable ride.*

*Versatile adjustability.*

*Effective activity without a single sweat drop.*
